

b. As before for option 1.

c. As before for option 1.

OR

3. a. You can simply give the test to your child and ask them to read through and complete it on their own, with no help, involvement or timing on your part. In this case you will not be able to give them the answers to the practice questions until they have finished the whole test. You should tell them to ignore the instructions stating 'Wait until you are told to go on'.

Please note, if you want your child to experience the test as closely as possible to the real test, then you should choose Option 1.

Marking and Feedback

The answers are provided below. Only these answers are allowed. One mark should be given for each correct answer – do not allow half marks or 'the benefit of the doubt'. Do not deduct marks for wrong answers.

Non-Verbal Reasoning: Solution rules are provided for one question in each section, to show you how the answer is reached.

The results may suggest that more practice is needed. Remember, always try to be positive and encouraging. Talk through the mistakes your child has made in a non-condemnatory way – work out together how to get the right answer.
